Giza, Cairo

Portfolio • LinkedIn • Facebook • GitHub

Entry-level Front-End Developer focused on building clean, responsive interfaces with HTML, CSS, JavaScript, and Tailwind CSS. Projects include a movie search app (TMDB API) and an e-commerce prototype with cart logic. Learning React and following best practices (Git, code reviews, accessibility). Open to freelance web work and internships.

Education

Bachelor of Science at Ahram Canadian University – Faculty of Computers and Information, 6th of October City, Egypt

October 2024 - August 2028

Grade: 3.0
